

ALIF DHAIFULLAH RAMADHAN

Fresh Graduate Informatika | UI/UX Enthusiast | Data Science | Full Stack Developer

Jl. Letnan Abdullah No. 74, Bangkalan Jawa Timur Indonesia | alifday20@gmail.com | 082237443941

SUMMARY

I am a Bachelor's degree graduate from Universitas Trunojoyo Madura with a background in Informatics Engineering. During my studies, I gained experience in website design development, full-stack development, and data science, which led to my strong interest in UI/UX Design. Up to now, the skills I have developed include web development, data analysis, and building systems based on Natural Language Processing. I am accustomed to working in teams, have strong communication skills, and am able to manage time effectively.

WORK EXPERIENCE

Universitas Trunodjoyo Madura **July 2025**

Research Assistant – Image Based of Rice Leaf Diseases Using Convolutional Neural Networks

- Conducted research on classifying types of rice leaf diseases using the Convolutional Neural Network (CNN) method.
- Processed and analyzed data to improve model accuracy.

PT Arkatama Multi Solusindo **June 2024**

Internship MSIB – Full Stack Web Developer

- Developed web-based applications as a Full Stack Developer.

Perguruan Pencak Silat Jokotole **2015 – Present**

- Prepared promotion test questions.
- Managed administration and correspondence.
- Organized activity schedules.

Technical and Physical Trainer

- Managed athlete training schedules.
- Trained techniques for competition preparation.
- Maintained athletes' physical condition and performance.
- Produced athletes who became champions in regional student sports weeks and the National Student Olympiad.

EDUCATION

Bachelor of Informatics Engineering **August 2021 – April 2026**

Universitas Trunojoyo Madura

- Final GPA: 3.57

Automated Essay Scoring System (Thesis)

- Developed an automated essay scoring system.
- Applied the Simplified Lesk Word Sense Disambiguation and Cosine Similarity methods.
- Improved objectivity in the assessment process.

Software Engineering **August 2018 – July 2021**

SMK Negeri 2 Bangkalan

KEY SKILLS

- UI/UX Design (Figma)
- Data Science (Python, Pandas, Machine Learning)
- Full Stack Development (HTML, CSS, JavaScript)
- Leadership
- Problem Solving
- Teamwork
- Public Speaking
- Time Management
